Re: Open Records Request 6416

Via email transmission

Mr. Martinez:

We have received your appeal letter dated July 18, 2019 regarding Open Records Request #6416, for records relating to Aurora Police Department's (APD) use of facial recognition software. It is our practice to thoroughly research each Open Records Request; however, in the interest of customer service, your request was reexamined.

After reviewing your request, it was confirmed that there are no responsive records to items 1, 2, 3, 4, 5, 6, 7, 8 or 9 as detailed. APD does not own, possess, contract, or use facial recognition technology in any form. As such, there are no agreements, bid records, policies, training records, etc.

Your appeal letter also mentions "any communication regarding the potential implementation of facial recognition software," and referenced unsolicited proposals and marketing material from facial recognition companies. This was not included in your original request. An email search was performed, for the time period of July 25, 2017 - July 25, 2019, as our email retention schedule is two years. Attached please find all responsive records concerning your new request for "any communication regarding the potential implementation of facial recognition software."

Respectfully,

Robert Boisselle
